PUBLICATIONS

Picking up where the earlier volume left off, *It's All in the Mind: Inside The Beatles' Yellow Submarine, volume 2* will delight Beatles and animation fans and collectors with over 200 illustrations and 356 pages packed with stories and memories. The wild tales from the creative young artists who brought this iconic film to life are colored by their enthusiasm of working in the center of Swinging London during the height of the Summer of Love.

Authors Hieronimus and Cortner examine the creative use of symbolism, archetypes and subconscious communication that deliver messages of peace and love straight into the hearts of audiences around the world and across time.

Today we are even more in need of a reminder that "love is all you need," and that we are "all together now."
